

DiskOnChip Millennium Module

8MByte Capacity, 32-Pin DIP, 3V

Description

M-Systems announces the availability of a new product, DiskOnChip Millennium Module, with 8MByte (MB) capacity and 3V operating voltage. It replaces DiskOnChip Millennium 8MB DIP 3V, and will be available in the commercial temperature range.

Ordering Information

DiskOnChip Millennium Module is available as follows:

Product Name	Form Factor	Capacity (MB)	Voltage	Temperature Range	Ordering Info
DiskOnChip Millennium Module	32-pin DIP	8MB	5V	Commercial	MD2802-D08
DiskOnChip Millennium Module	32-pin DIP	8MB	3V	Commercial	MD2802-D08-V3

Availability

DiskOnChip Millennium Module 3V will be available from November 15, 2002.

DiskOnChip Millennium Module 5V has been available since September 1, 2002.

Compatibility

DiskOnChip Millennium Module is hardware and software compatible with DiskOnChip Millennium 8MB DIP. The same TrueFFS version can be maintained when upgrading to the new device.

How to Contact Us

Please contact your M-Systems representative or visit the DiskOnChip web page on M-Systems' website (www.m-sys.com) for any further information or assistance.
