

A Complete Solution for Document Processing

FlexStream is a document processing solution, unmatched in its versatility and performance. FlexStream lets you add scancodes to your documents to be used by your inserter and manipulate and enhance the contents of your mailing. With FlexStream you can:

- Increase the integrity of your mailings by adding scancodes that can be used by inserters.
- Reduce postage costs by combining documents intended for the same recipient into a single mail piece.
- Turn your document into a marketing tool by adding conditional text, graphics and barcodes and by utilizing selective feeding.
- Eliminate the costs of preprinted forms by adding overlays and digital inserts to your documents.
- Convert traditional simplex printed documents to duplex to reduce paper costs and provide additional postage savings.
- Save costs by e-mailing all or a selection of your documents.

FlexStream loads existing PDF files and runs independently of existing software, so there is no need to change existing systems. Files are processed at high speeds and the result may be printed on any printer.

There is no need for specialized personnel to operate the software. FlexStream is easy to use because of its intuitive user interface incorporating ribbons, tooltips, context sensitive help, and wizards that take users through more complex tasks. Because of its close similarity to the latest Microsoft Office, it is very easy to understand FlexStream's user interface and operation. The FlexStream software is available in several languages.

FlexStream comes in three different editions so, depending on your production requirements, you can select a FlexStream solution that fits your needs:

- **FlexStream Basic**

FlexStream Basic is the solution for users who need to add scancodes (OMR, 1D or 2D BCR) to PDF files without the need to change the existing documents.

- **FlexStream Advanced**

In addition to adding scancodes, FlexStream Advanced offers extended document manipulation and enhancement features for users who need to add additional contents or want to change the layout of documents.

- **FlexStream Professional**

FlexStream Professional adds document management features like digital inserts, e-mail capabilities, archiving documents, and closed loop processing.

FlexStream can be extended with with additional services supporting Secure & Tracked email and to prepare mail according to the USPS postal standards.

- **USPS Mail Processing**

The Address hygiene and Presort services available through Flex Systems' USPS™ Mail processing module enable you to presort your documents according to USPS standards to get the lowest possible postage rates.

- **Secure & Tracked Email**

FlexStream offers a robust secure and tracked email service for sensitive business documents. FlexStream makes it easy to select the documents to be emailed, send the emails with the confidence that they will reach their intended recipients without passing into the wrong hands, and offers extensive tracking, audit, and follow-up functionality.
