

About Harwin

CONNECT WITH CONFIDENCE

Harwin makes superior products of the highest quality for demanding applications.

This is no idle boast. Our UK headquarters carries EN 9100 / AS9100D certification. We focus on quality, safety and technology. We continually improve our quality systems and invest in advanced manufacturing & automation.

Helping you solve your connection challenges is our passion. We back this up with amazing global support and agile response to your needs. We bring you innovative, dependable connector technologies; and we deliver them reliably, quickly and cost-effectively.

History

OVER 65 YEARS OF HISTORY

Since 1952, the de Laszlo family have been dedicated to delivering the ultimate in quality. From our early years as a dedicated turning facility to a world-leading specialist in reliable and high-performance interconnects. Harwin has continued to expand and develop new products through our commitment to customers, quality and continuous investment in people, processes and systems.
