

## **Fast Thyristor KK2500-28**

### Key Parameters:

VRRM = 2800V  
VDRM = 2800V  
IT(AV) = 2500A  
TQ = 50us-70us

### Product Features:

- 1,Very short turn off time
- 2,Large critical rates of current rise
- 3,High surge current ratings
- 4,Wide operating temperature range
- 5,Double side cooling

### Typical Applications:

- 1,Induction heating,Billet heating,Surface treatment
- 2,Induction melting
- 3,DC chopper drives
- 4,UPS
- 5,Pulse power
- 6,Other fast switching applications

### Outline size drawing:
