

10MM White Diffused Led

Type: led
Emitting color : white
Certification : CE & RoHs
Delivery time : 3-5 working das

10Mm White Diffused LED

Product detail

Place of Origin:	Hubei, China (Mainland)
Brand Name:	KENTO
Model Number:	5AR2UD09
Package Type:	Through Hole
Product name:	10MM white diffused forsted IED
Size:	10mm
Emitting Color:	White

Shape:	Round/Straw hat/Square
Lens Color:	Water diffused
Certification:	CE & RoHS
Mini package qty:	1000pcs

Product description

We have a supply capacity of 5,000,000 pieces per day. Delivery time is 1 to 5 business days. It is packed in cartons and the port where the goods are shipped is Shenzhen, Guangdong, China.

Introduction of LED light bulb voltage

LEDs can generally withstand a voltage of about 20%, which is too high to heat or even burn.

The conventional specifications are 12V and 24V, and the 12V LED strip is three LEDs for a group of 24V LED strips and six LEDs for a group.
