History

Mouser Electronics was founded in El Cajon, California by Jerry Mouser in 1964.^[1] Jerry Mouser was a physics teacher who needed components for an electronics program at his high school.

In 1983, his company relocated to its branch location in [Mansfield, Texas](#), and in 2001 expanded into a new facility on seven acres there.^[2] In January 2000, Mouser became a wholly owned subsidiary of [TTI, Inc.](#) in [Fort Worth, Texas](#). In December 2006, a majority ownership of TTI was sold to [Warren Buffett](#)-controlled [Berkshire Hathaway](#). In 2007, the company expanded its warehouse and office space by 231,800 square feet.^[3]

Mouser cosponsored the [SAE](#) 2013 Counterfeit parts Avoidance Symposium in Canada.^[4]

The company has been presented awards such as "Electronics Choice Industry Award for Community Activism - Social or Educational Cause" from the Electronic Components Industry Association in 2013^[5] and from connector manufacturer Harting in 2013 for "New Customer Growth" and "New Product Growth",^[6] and [Littelfuse](#) in 2011, for "Catalog Distributor of the Year".^[7]

After a 250,000 square foot expansion in 2016, the company's global headquarters and distribution center in Texas spans 750,000 square feet.^{[8][9]}

E-commerce

The website has products from 750+ manufacturers^[10] and access to 5 million data sheets. It has a project manager with automatic re-order and Bill Of Materials (BOM) import capabilities. Users can subscribe to a Mouser newsletter. Microsites off the Mouser.com website teach about new technologies.^[9]
