InduSoft Web Studio

InduSoft Web Studio® is a powerful collection of automation tools that provide all the automation building blocks to develop HMIs, SCADA systems and embedded instrumentation solutions. Utilize InduSoft integrated Web technologies to take advantage of Internet/intranet connectivity. [Click here to download the free trial of InduSoft Web Studio.](#)

1. **Save Time** – View your process from your desk or web-enabled mobile phone using a standard browser (Internet/intranet including XML support)
2. **Clear Information** – Multi-language support(UNICODE) so operators understand immediately, and projects can be localized quickly.
3. **Save Money** – Develop once and deploy on any Microsoft supported platform including Windows CE , Mobile, XP Embedded, and Server editions. InduSoft IoTView also supports Linux* and VXWorks.
4. **Flexibility** – Support for your PLC or controller, more than 250 drivers, OPC (client and server), and TCP/IP
5. **Troubleshoot Quickly** – Understand alarms quickly, visually on-screen, or via E-mail, PDA, mobile phones or web browsers
6. **Enterprise Integration** – Easily tie into ERP and "back-office" systems using built-in relational database connectivity
7. **Reduce Downtime** – Use open technologies (ActiveX, .NET) to visualize documentation, repair videos or audio messages
8. The **information you need** for Key Performance Indicators (KPI) and Overall Equipment Effectiveness (OEE)
9. **Worldwide Trust** – Since 1997 InduSoft has issued more than 350,000 licenses
