

TX6733

FPV 2.4GHZ 2W 16CH Wireless Audio Video Transmitter Module TX6733(2 groups of frequency, 8 channels is optional)

Quick Details

Place of Origin: Guangdong, China

Model Number: Ni-0503

Package: Transmitter Module

Voltage: 5V

Product Description

FPV 2.4GHZ 2W 16CH Wireless Audio Video Transmitter Module TX6733 (2 groups of frequency, 8 channels is optional)

Band: 2.4G (MHz)

Power: 2W

Dimensions: 45mm*28mm*10mm

Optional frequency: 16CH

Sensitivity: -95DBM

Power supply: 5V

Current: 600-800mA

Modulation mode:Wideband FM

Communication Range: 2000-3000M in empty space

2 Groups of frequency, 8 channels is optional:

A:

Ch1 2414/2490MHz Ch2 2432/2510MHz

B:

Ch32450/2390MHz Ch4 2468/2370MHz

Pls note:For 2W modules, pls use the power supply,which voltage must more than DC 5V and current must more than 2A,DON NOT use 7805 power supply.

Application:

- * FPV image transmission
- * DVD / DVB audio and video wireless transmission;
- * Baby monitors;
- * Project construction site image monitoring;
- * Wireless camera security system;
- * Wireless imaging medical devices
- * Wireless video toys
- * wireless door bell
