THERMOMETER / HUMIDITY METER (BLACK)

Product Details

Round embedded electronic thermometer and hygrometer reptile electronic thermometer and hygrometer acrylic box climbing box thermometer

Function overview:

1. LCD display

2. The opening size is 41mm in diameter (the measurement has a small error)

3. Shape diameter 45.2 (the measurement has a small error)

4. Weight: 25g (without battery)

5. Humidity display

6. Humidity measurement range 10%～99%

7. Humidity display resolution 1%

8. The humidity sampling cycle is 10 seconds (1 minute)

9. Humidity measurement accuracy ±5%

10. Rated voltage DC1.5v (1 AG13 button battery)

11. Temperature measurement range -50 to 70

12. Temperature measurement accuracy ±1 degree (under normal temperature)

Battery installation

Flip to the back of the product;

Push open the battery cover in the direction indicated by the arrow;

Put two LR44 button batteries into the battery slot

Installation and operation

1. Embedded installation

Electronic products have errors. Don't buy those with high requirements. The humidity of the product is about plus or minus 5% at room temperature, and the temperature is about plus or minus 1 degree.
