## Datasheet ISO Metric Nylon 6.6 Full Nut

Hex nuts are the most common type of nut used in general-purpose fastening applications and are appropriate for use in low-strength assemblies.

These Nylon 6.6 hex nuts are lightweight, corrosion resistant and nonconductive making them ideal for electrical applications or where corrosion is a concern.

We offer a range of Nylon 6.6 hex nuts in a range of thread sizes from M2-M12.

### Range Overview:

Material	Colour	Thread Size	Width	Type	RS Part No.
Nylon 6.6	Natural	M2	3.9mm	Full Nut	528126
Nylon 6.6	Natural	M2.5	4.9mm	Full Nut	528132
Nylon 6.6	Natural	M3	5.4mm	Full Nut	525701
Nylon 6.6	Natural	M4	6.9mm	Full Nut	525717
Nylon 6.6	Natural	M5	7.9mm	Full Nut	525723
Nylon 6.6	Natural	M6	9.9mm	Full Nut	528148
Nylon 6.6	Natural	M8	12.9mm	Full Nut	280492
Nylon 6.6	Natural	M10	17mm	Full Nut	280509
Nylon 6.6	Natural	M12	19mm	Full Nut	280515
