

# ANTEN GSM 3DB 5CM

L - shaped tape antenna SMA elbow right angle GPRS / DTU / GSM antenna quad - band gain 3DB antenna  
Antenna GSM / GPRS antenna / SMA elbow / SMA straight head of the series antenna

High-quality adhesive rod antenna, the signal attenuation is small, strong anti-interference, frequency is small,  
high signal quality.

## Electrical performance parameters:

Antenna length Leight : 5 cm

Frequency: 824MHz ~ 960MHz 1710MHz ~ 1990MHz

Gain Gain : 3dBi

Polarization: Vertical Vertical

Standing wave ratio V.S.W.R:  $\leq 1.6$  (SMA)

Connector Type : Connector SMA elbow

Output impedance: 50 $\Omega$
