

JUMPER WIRE F/F 40PIN (20CM)

40 pin dual Female splittable jumper wire - 20cm

This is a splittable 40 pin 20cm length dual Female jumper wire for 2.54mm, it is super flexible, can be transformed from 1-40 pin jumper wire. With some of these, you will no need to worry about the jumper wires you got before do not fit your project, just split it and go.

Handy for making wire harnesses or jumpering between headers on PCB's. These premium jumper wires are 3" (75mm) long and come in a 'strip' of 40 (4 pieces of each of ten rainbow colors).

They fit cleanly next to each other on standard-pitch 0.1" (2.54mm) header.

The best part is they come in a 40-pin ribbon cable. You can always pull the ribbon wires off to make individual jumpers, or keep them together to make neatly organized wire harnesses.

Note: The length of the jumper wires is sometimes a bit longer than what is listed.

For best results, when plugging these in a line, have the sides with the 'silver latch bit' sticking out since that side is a tiny bit wider than 0.1"

Package List:

- 1 x 40 pin dual Female splittable jumper wire - 20cm
