

EM-i8080 Board

The Z3735G is a 4-core CPU running at 1.33Ghz to 1.8Ghz which isn't bad. There's little in terms of disk space though 2GB available to the user on the system shown in the video below although we're sure the device will ship with a few more than that.

Emdoor EM-i8080 Specifications

Model name	EM-i8080
